## COFFEE

---

Our coffee is roasted at our very own roasting facility **RÖSTRAUM®**.

We only use selected beans from small plantations from the best regions in the world, and roast them carefully with a Probat-Drum roaster.

At Stadtcafe you will find our roasts “BLACK” and “RED”; a modern interpretation of Italian coffee:

“BLACK”; strong, chocolate, roasted hazelnuts, concentrated, silky crema, and “RED”; with a tasting profile of chocolate, cacao, hazel- and walnuts, sweet and with velvety acids.

You will find more varieties for your at home coffee experience in our online-shop: **[www.roestraum.at](http://www.roestraum.at)**

## HOME & HANDMADE

---

In our own manufactory, we are roasting coffee, we are mixing our own teas, and we create delightful drinks. We use, if available, fresh products, if possible in bio-quality. All our ingredients are free of additional amendments. We employ staff members with the core task of developing new recipes, quality control and tasting, as well as the production of our very own products.

“Home & Handmade”, also means to us, that we produce, if possible everything by hand. What you need is the love for the product, and we have plenty of it – Enjoy!
